OUR STORY

WHO WE ARE

Our passion at SERV International is to share God's love with people in need and it all starts with food. Whether you find us at the ends of the earth in Eastern Africa, the slums of Cambodia or serving in our own local communities in the States, we want to improve the lives of all those we encounter.

SERV International is a non-profit 501 C(3) organization that has used food as a platform to share God's love since 2000. For the past 20 years, SERV has built relationships with people who live in some of the most extreme conditions on the planet, and we keep going back.

We invite you to join us on a mission trip to personally experience life in a whole new way. You will never be the same after traveling with us to the ends of the earth and

beyond, serving others in need and reaching the lost. Don't want to travel that far? You can sponsor a child at our House of Hope orphanage, volunteer with us or become a partner or underwriter to help us further our reach. There are so many ways you can make a difference. You can start today.

OUR MISSION

We use food as a platform to share the love of Christ.

OUR VISION

To physically and spiritually feed people and develop stronger communities in some of the most remote regions in the world.

STEVE'S STORY

At twenty-five years old, Steve Kasha left home in rural Georgia to lead a group of aid workers in the jungles of Venezuela. While resting in his hammock one night, he felt called by God to feed the hungry people around the world. Ten years later to the day, he was on a plane to Kenya where a friend would take him to a famine-stricken Turkana region. After seeing starvation, drought, and even death, he promised one woman in a remote village, "I'm going to come back, and when I do, I will bring more people and more food." Five weeks later, he went back to the same village with more food and supplies. The same woman ran up to greet him, weeping. Steve asked the interpreter, "Is she happy I brought food?" The interpreter answered, "No. She is happy you came back. No one ever comes back."

Since that trip, Steve has returned almost forty times and helped to streamline coordinated global efforts that are revolutionizing the way people are being fed around the world. He secured a specialized food blend that is more nutritious than rice and beans, and he then found ways to package, ship, and distribute this food for only eight cents per meal into parts of the world that others claimed were impossible to reach. Because of Steve, children from villages around the world will never know starvation the way their parents and grandparents did. He wants every village he serves to become self-sustaining, starting with food.
